Jordan International Energy and Mining Exhibition & Conference

International Exhibition & Conference

29 July-1 August 2019

Amman International Motor Show Halls, Amman - Jordan

JO ENERGY

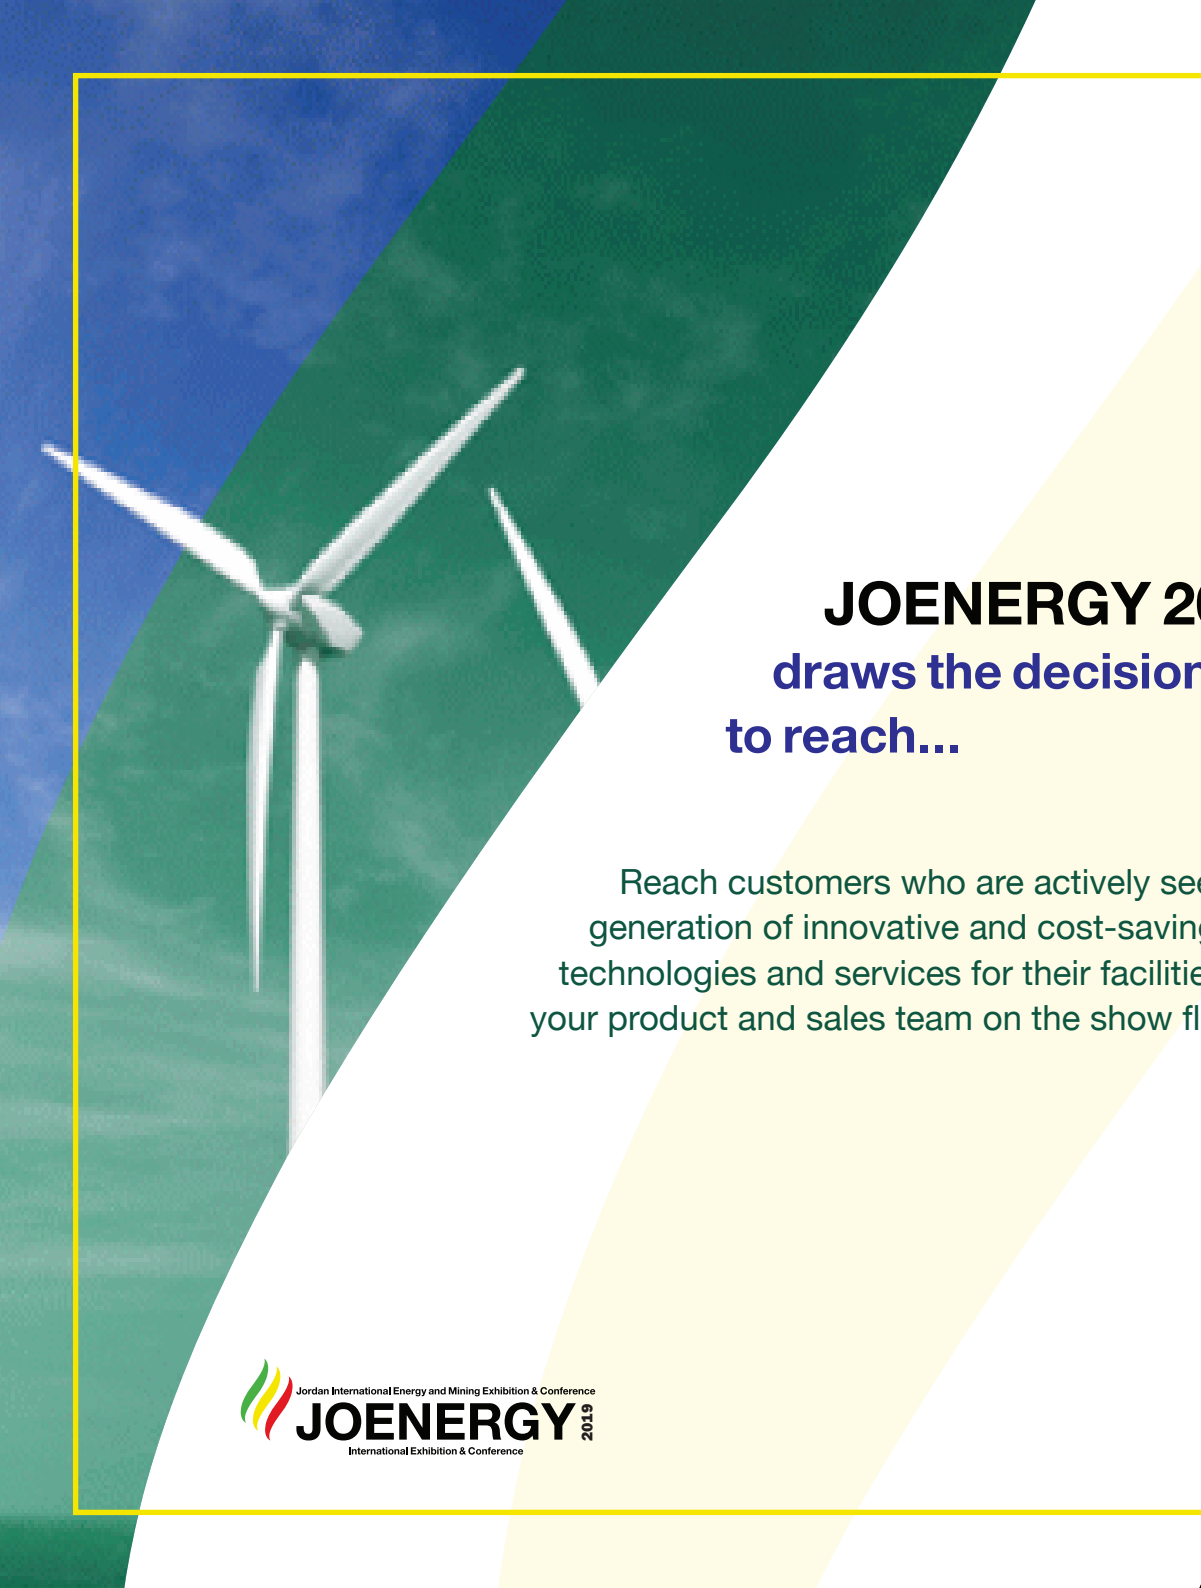

Jordan International Energy and Mining Exhibition & Conference

JOENERGY is Jordan' largest Energy event, taking place on 29 July-1 August 2019 in Amman, it Allows the entire spectrum of the Energy industry to showcase their energy solutions.

The free-to-attend annual exhibition brings together Jordan largest group of buyers from the Energy, solar, offshore and onshore, as well as those involved in energy storage, transmission and Onsite generation.

Since its launch, //JOENERGY has provided the industry suppliers, experts and thought-leaders from the Energy supply chain the opportunity to connect with new customers. Increase their sales Opportunities and expand business networks in this fast-changing marketplace.

Visitor Profile

- Project Developers/ Planners
- Utilities/ power generation
- Equipment Man Manufacturers
- Energy Consulting
- Independent Power Producers Engineers
- Government Agencies
- Power Companies
- Oil Gas Companies
- Construction and Development
- Large Industrial Companies
- Power Production Companies
- Service and Maintenance Providers
- Distributors and Retailers
- Industrial Water Users
- City Planners and Architects
- International Organizations
- Development Agencies
- Plant Operators
- Engineering Companies
- Technology Providers
- Contractors
- Consultants
- Researchers and Scientists
- Academics
- Media
- NGOs and Municipalities
- Water Authorities and Regulators

Measure your ROI by the quality of the connections you make...

As an exhibitor, justifying your marketing expense and booth costs is critical. At JONERGY 2019, every exhibitor gains two complimentary conference registrations and access to additional discounted registrations, so you can have more of your staff networking, educating and selling.

Jordan imports 96% of its energy needs which accounts for 20% of GDP.

Due to both economic and population growth, demand for electricity has been and is growing steadily at an annual rate of 10%.

The Ministry of Energy and Natura Resources (MEMR) crafted the National Energy Strategy (2007-2020) to implement ways to develop conventional, renewable and alternative resources- wind, solar, oil shale and nuclear.

Expected investments in the sector are around 51.4 - 2.1 billion through 2020.

OPPORTUNTIES

Manufacturing photovoltaic cells, wind turbines and PV invertors to market locally and regionally.

Participating in turnkey projects in wind and solar energy farms in Jordan and regional markets.

Manufacturing solar water heaters capitalizing on existing strength in research and testing capabilities.

Developing training programs to facilitate installation of photovoltaic technology in the region.

Regionally.

Renewable energy infrastructure such as Independent Power Producer (IPP) projects to serve local and regional markets.

Located within World Solar Belt 300-320 days of full sunshine.

Above World Average Wind Speed 7 meters per second,

Among the Highest Engineers Per Capita Ratios in the World, 1 engineer per 83 inhabitants in 2020.

Committed Governance Pro. Investment 'Renewable Energy Law.

Groundbreaking Energy Strategy $ 1.4 - 2.1 billion investments in sector.

Geopolitical Advantage Connected to MENA and Europe.
